## EYELASH EXTENSIONS

### WHAT ARE LASH EXTENSIONS?

Lash extensions are a revolutionary new product that will provide longer, thicker, luscious and natural-looking eyelashes.

Lash extensions are not your traditional fake eyelash strips--they are semi-permanent individual eyelash extensions.

The lashes are applied directly to individual eyelashes for a NATURAL look and feel. With lash extensions you will have long, thick, beautiful lashes without the worry and work of applying and removing mascara.

### WHAT DOES IT COST?

The initial application is \$199 and takes about 2 hours. Touch-ups are \$60 each if scheduled every two weeks, and \$85 if scheduled every three to four weeks.

### HOW LONG WILL THEY LAST?

Lash extensions are semi-permanent and can last up to 60 days, depending on the life cycle of the individual's natural eyelashes.

### WILL LASH EXTENSIONS DAMAGE MY LASHES?

No, lash extensions should never damage your natural lashes. The only time a problem will arise is clients pull on the lash extensions.

### CAN I WEAR MASCARA WITH MY LASH EXTENSIONS?

You can, but most people do not need to. If you want to wear mascara, put it on the tips only and use water-based mascara.

## WAXING

Whole Body Studio aestheticians use **CIREPIL BLUE** non-strip wax. This creamy, smooth wax is applied in thin layers and the hair is trapped almost instantly through the process of polymerization. The wax solidifies, but remains supple and does not break, creating a **CLEAN REMOVAL** with no lifting of the skin or sticking.

For those with **EXTRA-SENSITIVE SKIN**, we also offer **SUGARING**. Sugaring is a non-invasive, all-natural hair removal method created thousands of years ago.

While there is still an element of pain involved (after all, we are removing hair!), sugaring, unlike waxing, may be utilized again and again in the same spot with no adverse effects to the skin. Sugar dissolves completely using only warm water, making cleanup a breeze!
